OBJECTIVE

I'm passionate about coding and solving problems. I've built a strong foundation in frontend (HTML, CSS, React.js, Bootstrap) and backend (Java, Spring Boot) development. I enjoy creating clean, user-friendly applications and am excited to bring my skills to a collaborative team. I'm eager to keep learning and growing as a full-stack developer while contributing to meaningful projects.

TECHNICAL SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, Java.
- **Frontend Technologies:** React.js, Bootstrap.
- **Backend Technologies:** Spring Boot, Java (JDBC).
- **API Handling:** Fetch API, RESTful APIs.
- **Server Management:** Apache Tomcat, XAMPP.
- **Databases:** MySQL, Oracle.
- **Tools:** Git, GitHub, Excel, Power BI (Beginner).

PROJECTS

❖ **Landing Page (Evolution – Electric Vehicles)**
- Created an easy-to-use website with React.js to help people learn about electric vehicles and their impact on sustainability.
- Designed an engaging homepage with videos and images to make information more interactive and visually appealing.
- Built a dedicated section featuring popular EV models, including pricing and direct links for more details.
- Used Bootstrap, CSS, and React Router to ensure smooth navigation and a responsive user experience.
- Focused on making EV knowledge accessible and enjoyable for all users.

❖ **THE Coffee Shop Website**
- Developed a responsive website for a coffee shop using HTML and CSS, featuring a user-friendly navigation system, interactive product cards, and custom-designed headers.
- Implemented responsive design with media queries for mobile, tablet, and desktop compatibility.
- Integrated multimedia elements, smooth scroll-to-top feature, and optimized user experience across all devices.

❖ **To-Do Application**
- Built a full-stack To-Do app using Java and MySQL with JDBC for smooth database interaction.
- Implemented the MVC design pattern, ensuring organized, maintainable code.
- Designed a responsive UI with HTML, CSS, and Bootstrap for an optimal user experience.
- Developed backend functionality using Java Servlets, adding session management and user verification for secure access.
- Deployed the app on Apache Tomcat with XAMPP to manage the local server and database efficiently.

EDUCATION

➢ Bachelor of Engineering in Electronics & Telecommunication Engineering
Bharati Vidyapeeth College of Engineering, Kolhapur (Ch. Shivaji University Kolhapur)
CGPA: 7.27
Graduated: 2024

➢ Diploma in Electronics & Telecommunication Engineering
New Polytechnic Kolhapur (Autonomous)
Percentage: 83.00%
Graduated: 2021

SOFT SKILLS

- **Problem Solving:** Enjoy finding creative solutions to challenges.
- **Team Collaboration:** Thrive in team settings and value learning from others.
- **Time Management:** Able to balance multiple tasks and meet deadlines.
- **Communication:** Clear in sharing ideas with both technical and non-technical teams.
- **Adaptability:** Quick to learn and adjust to new tools and challenges.

LANGUAGES

- Marathi – Native
- Hindi – Fluent
- English – Basic

CERTIFICATIONS

Java – Full Stack Developer - Seed Infotech, Viman Nagar, Pune (Expected May 2025)
